Subject: Wilcox--Additional Information that may support filing against the trust

All, in talking with Mike about PRPs for our sites, he informed me of the trust related to APCO. Attached is a letter that better describes the situation. In general, the thought was that since the trust was dissolved then CERCLA had no claim. However, this was pursued and as I understand it a success in obtaining funding. Of course, Pam has all the legal details

Thoughts? You think this helps support an action to file against the trust?

Also, attached for reference is KinderMorgan's response regarding the trust.
